PRECEDENCE MATTER. GREAT FIRE DAMAGE.

This Appears to Be the Stumbling Block In Negotiations.

MAY EACH HAVE TRIO

Probabilities Are This Will Be the Number of Plenipotentiaries the Respective Nations Will Decide Upon.

St. Petersburg, June 26.—Both Japan and Russia are now understood to have agreed on the time when the plenipotentiaries shall meet at Washington. It will be during the first ten days of August, but the exact date probably will be announced by President Roosevelt. The question of precedence evidently is the main stumbling block to a prompt settlement of the number of personal negotiators. Both sides seem desirous to make each other take the initial move. Russia seems to consider it Japan's duty to name her plenipotentiaries before Russia announces hers. The exact number of plenipotentiaries has not been officially arranged, but both powers seem to have tacitly agreed on three. The actual announcement of the names of plenipotentiaries will be within the next few days. An official statement of the situation is: "All is going on favorably."

The question of possible armistice as stated last week, remains in abeyance for the moment. Japan is understood to have declined even to take the matter up until the issues involved in the Washington meeting are definitely settled. In the meantime there have been heavy downpours of rain in Manchuria and the rainy season may enforce suspension of military operations before the diplomats can act.

WARSAW WARLIKE.

Infantry and Cossacks Are Stationed In the Streets.

Warsaw, June 26.—The city has the appearance of a military encampment. Infantry and Cossacks are bivouacked in the streets and patrols are circulating everywhere. Shops are largely closed, but cars and cabs are still running. Barricades have been erected at the corner of Ogrodowa and Zelasna streets, and the occasional crack of a rifle is heard as the strikers shout at the men going to work.

Jewish districts are now in full revolt. Shops and stores are closed and traffic is delayed. Street cars have been overturned to form a nucleus. Great crowds have formed in the streets, and the ugly temper of both populace and troops threatens to break out in bloodshed at any moment. Thirty-four battalions of infantry are stationed in town.

PRESIDENT'S WISH.

Expresses a Desire to Have Plenipotentiaries Meet Aug. 1.

Washington, June 26.—The president has expressed a wish to the Japanese and Russian governments that their plenipotentiaries meet in the United States on the first day of August and if not on that date then at the earliest date thereafter.

The following statement regarding the meeting of the plenipotentiaries were made public at the white house: "The president received from both the Russian and Japanese governments a statement that the plenipotentiaries of the two powers would meet in the United States during the first ten days of August and the president expressed to both governments the wish that the meeting should take place if possible on the first day of August, and if not on that date then at the earliest date thereafter."

Nashville Visited by a Decidedly Costly Conflagration.

LOSS WAS ENORMOUS.

Occurred In What Is Known as the Shopping District and Some Extensive Establishments Are the Victims.

Nashville, June 26.—Fire in the retail shopping district Sunday caused damage estimated at between \$500,000 and \$650,000. The flames were discovered in the Palace, a large department store occupied by Harris Bros. and Jacobs Bros., at the southwest corner of Union and Fifth streets. Their spread was rapid and when they were finally gotten under control the following included the list of losses:

The Palace, four story building, 245 Fifth avenue, North, occupied by Harris Bros., wholesale and retail millinery, and Jacobs Bros., owned by Norman Kirkman; burned.

Two three story buildings, 237 and 239 Fifth Avenue, North, being fitted up for Kress & Co., owned by Browne heirs; wrecked by falling walls and burned.

Two story building, 305 Fifth Avenue North, occupied by Wright Bros., decorators and Cash grocery store.

The fire was discovered shortly after the noon hour and burned throughout the afternoon. The Palace and the Manix are the principal losers, the stocks of goods in both houses being entirely consumed. The Palace stock was valued at \$200,000, with \$150,000 insurance. The Manix company estimates its stock at from \$150,000 to \$200,000, fully insured. The buildings occupied by these two concerns were valued at \$75,000 each and both were fully insured.

Blaze at Cleveland.

gutting the building and doing \$100.-Cleveland, O., June 26.—Fire broke out shortly before 2 o'clock Monday morning in the Willard Storage Battery company's building, completely 000 damage.

PATHETIC SUICIDE.

"Never Make Another Think You Love Him Better Than Life."

Memphis, June 26.—Believing himself to be a victim of unrequited love, Harry R. Grandison, a stone cutter, nineteen years of age, swallowed carbolic acid within sight of his sweetheart, and after walking a few yards sank upon the lawn of a schoolhouse in North Memphis, where he and the object of his affections had been classmates for years, and expired before aid could reach him. To the girl's mother, a week ago, young Grandison had declared that he intended to take his life. Sunday afternoon he appeared at the house of a neighbor, where the young lady was visiting, and asked for a bucket of water. Just after he left the house he drew a vial of poison from his pocket and drank the contents. Two letters were found in his pocket: One addressed to his mother, who is en route to Cleveland, O., to attend the funeral of her mother, the other to his two sisters, in which he said: "Try and take my life for an example and never make another think you love him better than life."

KILLS HER CHILDREN.

Woman Shoots to Death Four Little Ones and Attempts Own Life.

Grand Lake, Colo., June 26.—Mrs. Watt C. Gregg shot and killed her four children and attempted to take her own life Sunday. The woman is in a critical condition from a wound in the side. The tragedy is believed to have been committed by the woman during a fit of temporary insanity. Mr. Gregg, who was on his way to a neighbor's house, heard shots in the direction of his own home and hastily returning found his wife lying wounded on the doorstep and three of the children lying on the floor in pools of blood. The other child was sitting in a chair dead. The children ranged in age from six months to eight years.

DREADFUL DUEL.

Fought In Presence of the Wife of One, Sister of the Other.

Paducah, Ky., June 26.—J. J. Spink, an Illinois Central railroad conductor, and his brother-in-law, J. J. Walters, a piano tuner, engaged in a pistol duel in a room of the former's home, where his wife and their new born babe lay. Spink was killed and Walters so badly wounded that he died a short time later. The infant died from shock and the mother is kept alive by artificial means. A trivial matter is said to have been the cause of the shooting.

Spink had been a conductor on the Memphis branch of the Illinois Central for a number of years.

Merchant of Verden, Okla., Ends Existence With Shotgun.

Anadarko, Okla., June 26.—At Verden, a new town ten miles east on the Rock Island railroad, B. E. Bebee killed himself by blowing out his brains with a shotgun. INSURANCE

This is quite a feature of my business. I represent two strong and liberal companies, whose contracts are free from the usual numerous restrictions that some other companies have, which really have the effect of insuring the company instead of the insured. No trouble to explain the policies and quote rates. ACCIDENT TICKETS—These are adapted to persons who do not desire yearly insurance, but who wish protection on short trips, etc. I issue them without written application, taking effect immediately.

R. Onishi, a Japanese farmer of Webster, Tex., S. Shimizu, a banker of Japan, and H. Shimaoka, a wealthy land owner of the same country, have been in Crowley for the purpose of studying the canal system of irrigation. Mr. Shimizu and Mr. Shimaoka are contemplating the purchase of a large tract of rice land for the purpose of establishing a Japanese colony. Mr. Onishi, who raised 100 acres of rice at Webster last year, averaging twenty sacks to the acre, declares that the Gulf Coast rice lands are capable of producing rice equal to the best rice grown in Asia.—Crowley Signal.

Jacksonville has shipped thirty-nine cars of tomatoes up to June 7. The first car sold for \$1.44 per crate on the track and the balance sold for about \$1.25. It pays to raise early vegetables for the eastern markets.—Longview Clarion.

The tomato growers are strictly in it this year, while the farmer who staked his all on potatoes is not bothered with the bulging of his pockets as was the case last year. It is impossible to tell at planting time what truck will be the most profitable, but the trucker who diversifies his crop and plants some of several good crops will win oftener than he loses. Anyway, a bad year for any one crop need not discourage the truckers for it may not happen again in many years.—Wills Point Chronicle.

WARM WEATHER HELPS.

Get Rid of Your Catarrh by Using Hyomei Now.

Everyone who has catarrh should take advantage of the warm weather to get rid of this annoying and distressing disease. The right treatment, faithfully followed, in May or June, will benefit much more quickly than in the winter and early spring.

Do not try to cure catarrh of the head and throat by taking drugs into the stomach. It cannot be cured in that manner. The only way in which this too common disease can be cured is through a direct application that will kill the germs of catarrh and prevent their growth.

Hyomei is the only known method of treatment that accomplishes this. It is the simplest, most pleasant, and the only absolute cure for catarrh that has ever been discovered. When using Hyomei every particle of air that enters the air passages of the throat and head and goes into the lungs, is charged with healing balsams that kill the catarrhal germs and soothes and allays all irritation.

The first day's use of Hyomei will show a decided improvement, and in a short time, especially if used at this season of the year, there will be no further trouble from catarrh.

You take no risk in buying Hyomei. The complete outfit costs but one dollar, and if after using you can say that the treatment has not helped you, E. J. Jenkins will return your money.

As a result of the heavy rains the water courses throughout the county were on a big rampage yesterday and much damage to crops and bridges is reported. The Brazos river was half bank full yesterday afternoon and rising some, but planters were not apprehensive of an overflow. Later—Reports late yesterday afternoon were that the Brazos lacked twelve feet of going out at Port Sullivan and ten feet at Carson & Smith's place, and was rising slowly.

The school board has made formal application for the installation of a manual training department in the Marlin schools. These departments are partly paid for by the state and are established to encourage pupils to learn the practical part of education that they may be better fitted for the busy life of which they are to become a part. This is a feature that will prove very valuable to our schools and the board is to be congratulated upon its action in the matter.—Marlin Democrat.

MARRIED IN HONDO CITY.

Mr. Hugo Jahn and Miss Pearl Wallace
Steal a March on Friends.

On last Thursday at 3 p. m. Mr. Hugo Jahn and Miss Pearl Wallace of this city were quietly married by Rev. Pledger, a Baptist minister, at the home of Mr. and Mrs. Jack Swearingen, cousins of the bride, at Hondo City, Texas, where the bride and her mother were visiting.

The marriage was a surprise alike to relatives and friends, as the young people seem to have taken no one into their confidence. The bride and her mother left to visit at Hondo the first of the present month, and the groom followed about a week ago, and successfully carried out plans for bringing his sweetheart home as his wife. The young couple arrived in the city Sunday and will make their home with the bride's mother.

CLARK'S FORK OF THE COLUMBIA RIVER.

The Clark Fork of the Columbia Valley is a most fertile and picturesque one, full of interest to the traveler, through many miles of which the Northern Pacific Railway skirts the stream of that name, an illustration of which is shown above.

It is through this and hundreds of miles of similarly grand territory that many of those from Texas will pass to or from the Yellowstone National Park or the Lewis & Clark Exposition this summer in their enjoyment of the extraordinarily liberal special arrangements recently perfected by the Fort Worth & Denver City Railway ("The Denver Road") in connection with the Colorado & Southern, the "Burlington," the Northern Pacific, the Oregon Ry. & Navigation Co., the Oregon Short Line and the Denver & Rio Grande Railway lines in the interest of having the citizenship of the Southwest become acquainted with the many exceptionally interesting, beautiful and unique features possessed by that country alone; these railway lines appreciating that such present liberality will mean to them more than an opportunity of handling, with much greater profits comparatively, many of the same and thousands of other tourists during future seasons—this being the natural sequence of any similarly meritorious proposition thus introduced to the uninitiated, as has been amply demonstrated with reference to Colorado and its hundreds of interesting features and delightful resorts.

The valley referred to, gradually descending as it does from lofty heights, resolves itself into alternate park-like spots and straggling paths of evergreen trees through which the river, as a noisy, tumbling stream, passes to finally plunge over Thompson Falls, which may be observed from the train and is of itself worth a journey of many miles to view. Within this section is also located the famous "Cabinet Gorge," a rocky, picturesque spot where the river flows between rocky walls, forming a long, narrow and beautiful canon wherein the pea-green color of the water is in fine contrast with its unusual environment.

This beautiful river was named by Captain Lewis of the Lewis & Clark expedition after his brother officer, Captain Clark, in 1805. Lewis & Clark explored the headwaters of this stream, now known as the Bitterroot River, and the whole stream was called by them Clark's River. Eventually the upper courses became known as the Bitterroot and the Missoula Rivers, the name, Clark Fork, applying to the stream where the Missoula forms junction with the Flathead river. The Northern Pacific railway, after crossing the Rockies, follows the Flathead and Clark Fork streams to the lovely lake Pend d'Oreille, and the Burlington Express from Denver, which maintains connection to and from Texas and the Southwest, uses the Northern Pacific tracks from Billings, Montana, west, and passes through the scenery here mentioned plus miles additional of an equally grand nature, specific mention of which is impossible within the limited space here allotted.

WHY?

The reason One Minute Cough Cure relieves a cough in one minute, is because it acts first on the mucous membrane right where the cough troubles—in the throat or deep-seated on the lungs, destroying the microbes or cough germs and clearing the phlegm. One Minute Cough Cure not only destroys the disease germs, and clears out their poison, but it gives strength and elasticity to the delicate membranes which protect the throat and lungs. Opens the air passages and promotes unobstructed breathing. Causes the blood to receive its natural supply of oxygen, thus exhilarating the pulmonary organs with such strength and vigor that the lungs and bronchial tubes become bulwarks against the invasion of disease. Asthma, Bronchitis, La Grippe, Croup, whooping Cough and all Pulmonary Complaints that are curable are quickly cured by the use of

HAY ILL.

Secretary of State Suffered a Nervous Collapse and Specialist Called.

Newport, N. H., June 26.—Dr. Charles Scudder, a Boston capitalist, arrived here on a special train from Boston to attend Secretary Hay who arrived at his summer home at Lake Sunapee Saturday. The secretary, who suffered a sudden relapse and nervous breakdown, grew much better after the arrival of the physician, and Monday his condition became so favorable that Dr. Scudder arranged to return to Boston. Dr. Scudder attributes Secretary Hay's attack to a sudden cold contracted on his trip to this place. It is thought he will be all right in a day or two.

Secretary Hay began to be in pain early Sunday. The remedies which had given relief on previous occasions were applied, but failed to help him, and Dr. Cain was called from Newport. He found that in changing from the climate of Washington to the cooler temperature of the Lake Sunapee region the secretary had taken a severe cold, and his organs, weakened by previous attacks, had been seriously affected. Upon learning this, Mrs. Hay decided that the specialist be summoned at once.

RAMMED AND SINKS.

Twenty-Two Cadets Were Drowned and Fifty-Seven Rescued.

Copenhagen, June 26.—A serious disaster occurred Sunday night near here when the Danish cadet training schooner Georgestage sank in one and one-half minutes. Twenty-two cadets were drowned and fifty-seven rescued. The boys were all in their bunks at the time of the disaster. The night was overcast, but it was not so dark that objects could not be seen at some distance. The Ancona was considerably damaged along her water line. Port authorities placed an embargo on the Ancona, which will remain here until the inquiry into the collision is completed.

The Georgestage was a schooner of 206 tons, registered, and 103 feet long. She was a training vessel for the mercantile marine and owned by a private firm of Copenhagen.

THROWN FIFTY FEET.

Switchman Hurlled to Death in View of Many Pleasure Seekers.

Chicago, June 26.—In view of several hundred pleasure seekers, Charles Worthmiller, a switchman, has been thrown from a rapidly moving car on the scenic railway at a South Side pleasure resort, falling to the ground, fifty feet below. He died soon afterwards, at the resort's emergency hospital.

When the scenic train departed down the incline high in the air, Worthmiller and a companion were seated on the front of a car. As the car was being elevated to the depot Worthmiller stood up. He was warned of the danger, but paid no heed to the caution. When the car started on its trip down the steep incline, running at a rate of seventy-five miles an hour, the man waved his arms and shouted. The next instant the car bounded up a curve. The jolt caused Worthmiller to lose his balance. He threw his arms out to catch himself, and as he did so struck one of the posts. He was thrown from the car head foremost.

When he was picked up Worthmiller was unconscious. He had landed on his head, fracturing his skull.

Austin, June 26.—Although it drizzled nearly all Sunday afternoon thousands of persons attended the funeral of the late Governor Lubbock. The floral offerings were many and beautiful. Interment was had in the state cemetery. After lying in state in the senate chamber up to 11 o'clock Sunday morning the remains were conveyed to the residence, from which place the funeral occurred late in the afternoon. The local companies formed a military guard and headed the march to the grave. A select choir sang the hymns requested by deceased in his letter suggesting what he desired done when his end should come.
